About Us

Services

Application Development

The Application development provided by Glitz IT Solutions extent the entire project life cycle, starting from requirements analysis through design, development, testing, integration, delivery and implementation to after-sales support

Cloud Enabled Products

Using computers in the cloud can make lots of sense. Rather than buying and maintaining your own machines, why not exploit the acres of internet-accessible servers on offer today? We are experienced in developing applications using Windows Azure and SQL Azure.

Mobile Application Development

Mobile application software is developed for several devices. These applications are either pre-installed on phones during manufacture, or downloaded by customers from various mobile software distribution platforms. iPhone , Android and Windows Phone Development are our major activities. Specific mobile application references can be provided on request.

Microsoft Dynamics ERP and CRM

Microsoft Dynamics ERP is an Enterprise Resource Planning Software solution, that help, integrate finance, accounting, manufacturing, project, retail and other supply chain management business processes. It is a complete ERP solution which integrates the data from the different divisions of the organization and hence result in the easy co-ordination and effective management. The system provides various methods to analyze the input and output computation. The effective utilization of the manpower and the machine hours will lead the system to better heights. We are providing customization and implementation services for Microsoft Dynamics ERP and CRM.

Microsof SharePoint Development

Another robust product from Microsoft, the SharePoint 2010 offers varied features to get the maximum advantage of being connected to the web platforms. The powerful integrating capacity with the Microsoft products especially with MS Office 2010, gives the user the familiar look and feel of the Office Interface. And it is easy for development and management of vast ERP solutions and thus helps to make effective and efficient decisions. In flakes has got wide expertise in Sharepoint development and migration services from other applications to Sharepoint.
